WORKSHEET 1

Case Study Material – Provided by Time2resources

A good business student not only knows their theory, i.e. the content that is on the specification, but also thinks business. Business Studies is a subject that surrounds us all day every day. We start to spot the actions taken by businesses and ask “Why?”; we start to question how we interact with business and the factors that influence our decisions; we start to question what is happening in society and the economy. A good business student is inquisitive.

Let’s start by thinking about what you already know and what your perceptions are about a key business, Aldi, the case study to be used for your Summer Learning work.

TASK: In less than 15 words sum up what you think about Aldi supermarket in the box below.

TASK: Who are the key players in the UK supermarket industry? List them in the box below.

TASK: The pie chart below shows what % of the market the 6 biggest UK supermarket chains control. Use your existing knowledge of the industry to try and identify which segment of the chart represents which supermarket chain. 10% of the chart can just be labelled 'other'.

Market share in the UK supermarket industry

Check your answer, Supermarkets.

TASK: Complete the blanks in the text:

Market share is the % of an industry controlled by one business. In the example on the previous page we could say that: _____ is the dominant business in the UK supermarket industry with a market share of ____ %. We call this *application*, the skill of applying our knowledge to a specific business or industry.

The supermarket industry can be described as competitive. Explain what you think this means in the box below:

A business will therefore take actions to try and gain market share by having a **COMPETITIVE ADVANTAGE**. This means a feature or features of the business that allows it to perform better than others in the industry.

Watch the first part (approx. 15 mins.) of the Channel 5 documentary “Inside Aldi”. <https://www.channel5.com/show/inside-aldi-britains-biggest-budget-supermarket/>

TASK: Draw a spider diagram below to summarise any actions that you think Aldi takes to gain a competitive advantage over other supermarkets.

Whilst watching this video you were introduced to some key business concepts.

The **MARKETING MIX** is the combination of elements of marketing that are used to influence customers buying habits. The **SEVEN Ps** of the marketing mix can be summarised as:

Product: the good or service that the customer buys

Price: how much the customer pays for the product

Place: how the product is distributed to the customer

Promotion: how the customer is found and persuaded to buy

People: the people who make contact with customers in delivering the product

Process: the systems and processes that deliver a product to a customer

Physical: the elements of the physical environment the customer experiences

TASK: Write a sentence to describe each of the 7P's in relation to Aldi.

Product:

Price:

Promotion:

Physical:

Aldi gains a competitive advantage by charging low prices. It achieves this by making cost savings. **Watch this short YouTube video to learn about total costs.**

TASK: Summarise the key points from the video below:

KEY TERMS GLOSSARY.

In Business Studies you will learn a lot of new terminology. In this first worksheet you have been introduced to 6 key terms:

- Market share
- Competitive advantage
- Marketing mix
- Total costs
- Fixed costs
- Variable costs

TASK: Add these terms to a key term glossary /list. Use the following website to write full definitions of these words. www.tutor2u.net/business

WORKSHEET 2

In year 1 of Business Studies A Level a lot of the content covered is about TACTICS. These are short-term actions taken by a business. In year 2 you study more about STRATEGY. These are the medium to long-term actions taken by a business.

In the first part of the programme you watched, a statement made about the growth of Aldi in the UK was: "It is nothing but good for the supermarket industry and for shoppers". Here the industry would include competitors and suppliers. Shoppers would include customers and the community. These are called STAKEHOLDER GROUPS. A stakeholder is anyone who is affected by or interested in the actions of a business.

TASK: Consider the extent to which you agree with the statement 'Aldi's growth is nothing but good', based on each stakeholder's point of view. Justify your decisions.

Stakeholder	Strongly agree							Strongly disagree		
Competitors	10	9	8	7	6	5	4	3	2	1
Justification										
Suppliers	10	9	8	7	6	5	4	3	2	1
Justification										
Customers	10	9	8	7	6	5	4	3	2	1
Justification										
Community	10	9	8	7	6	5	4	3	2	1
Justification										

An important skill to practice and develop over your studies is the ability to make judgements and fully justify these. We call this skill *evaluation*.

TASK: Watch the second part (approx. 15 mins.) of the Channel 5 documentary “Inside Aldi”.

<https://www.channel5.com/show/inside-aldi-britains-biggest-budget-supermarket/>

Add to your previous spider diagram any more actions that you think Aldi takes to gain a competitive advantage.

TASK: What evidence is there of Aldi successfully cutting costs and increasing efficiency? Briefly outline this in the box below.

A topic you will study in year 1 is motivation. MOTIVATION is the reasons why people behave in the manner that they do. Businesses want to try and increase employee’s motivation through their ‘will to work’. A business that can motivate the workforce is likely to gain a competitive advantage. Motivation methods can take the form of financial incentives e.g. bonuses and non-financial incentives e.g. increased responsibility.

TASK: What evidence is there from the video of how Aldi tries to motivate their workforce? Briefly outline this below:

Business can sometimes be a power battle between different stakeholders. Big businesses can use their power to influence suppliers. This can be in the form of forcing suppliers to offer lower prices or, in the video you have viewed, forcing suppliers to stop supplying products to a competitor.

TASK: Why do you think big businesses are able to have power over suppliers? Briefly explain in the box below:

ETHICS is behaving in a way that is thought to be morally correct. To what extent do you think the big supermarkets behaved in an ethical manner when faced with the threat of Aldi entering their market?

TASK: Using the information from the video, outline your viewpoint, and justify your view.

BRANDING is a promotional method that involves the creation of an identity for the business that distinguishes the business and its products from its competitors. How important is branding to you?

TASK: For each of the following products, rate how important the brand is to you: 10 being *I only ever buy one brand* and 1 *I will buy any brand*.

Product	Importance of brand 10 - 1	What and why
Baked beans		
Cola drink		
Bottled water		
Trainers		
Chewing gum		
Chocolate		
Pens		
Note pads		
Batteries		
Smart phone		

If you have a favourite brand what is it and why?

TASK: How do you think Aldi have challenged our perception of brands? Briefly explain your opinion below:

In 2013 Aldi had 300 stores in the UK. By 2017 this had increased to 600 stores and 874 stores by 2020. An important quantitative skill in Business is the ability to calculate percentage change.

TASK: Fill in the table below to show percentage change between 2013 and 2017, and 2017 and 2020.

2013	2017	2020
300 stores	600 stores	874 stores
% change:

WORKSHEET 3

All business courses cover legal structure or business ownership. This is the legal ownership that a business adopts. This can be unlimited liability businesses such as a sole trader or limited liability companies, be they publicly or privately owned.

UNLIMITED LIABILITY means that the personal assets of the owner(s) are at risk. This means if the business got into debts the owner may have to sell their personal possessions to cover this debt. For example, a sole trader may have to sell their family home and car to cover the debts of the business.

LIMITED LIABILITY means that the owners are only responsible for, and therefore only risk losing, the amount they have invested or promised to invest. Their personal belongings are safe.
