

## **Computer Science Summer Independent Learning (SIL)**

The Computer Science SIL tasks can be found on the following link:

**<http://tiny.cc/ncpcs11to12>**

These tasks are designed to help you bridge the gap between Year 11 and Year 12 and to also help you to improve some of the independent study skills you will need to develop over time. This is a great opportunity for you to show your skills and interests!

Please bring a copy of the completed workbook to your first lesson at the start of Y12.

### **Help and Support**

If you need any advice, or are unable to access the workbook, please e-mail one of us on the addresses below:

**Phil Clarkson**  
[philip.clarkson@nclt.ac.uk](mailto:philip.clarkson@nclt.ac.uk)

**Adam Watkin**  
[adam.watkin@nclt.ac.uk](mailto:adam.watkin@nclt.ac.uk)

The last page of the workbook also contains a number of links you may find useful.

We hope you enjoy the tasks and look forward to seeing you in September!

*Phil & Adam*
